About This Game

Welcome to the streets of Kingpin Royale, a drug selling strategy game that puts you in the throne as kingpin! With several unique products to manufacture and sell, you oversee your destiny. With many ways to win and even more to lose.

Bringing together territory control and sim elements, to allow to the player full control over their empire. Multiple playable characters and varying AI offering even more ways to play. Short gameplay sessions for easy pick-up and play fun. Multiple play throughs are a must to learn the how the streets work.

A living heat system that is based off the product being made. In a world of high risk, high reward, remember to be cautious as this thinking can also bring the police right to your doorstep. When the cops eventually do come knocking, they will shut down that block permanently!

Expand or attack the opposition? Move to a more expensive product thus bring down more heat on you or stay low-key and lay in the cut? The choices you make matter minute by minute. Will you rule the streets as an OG or will you just be another

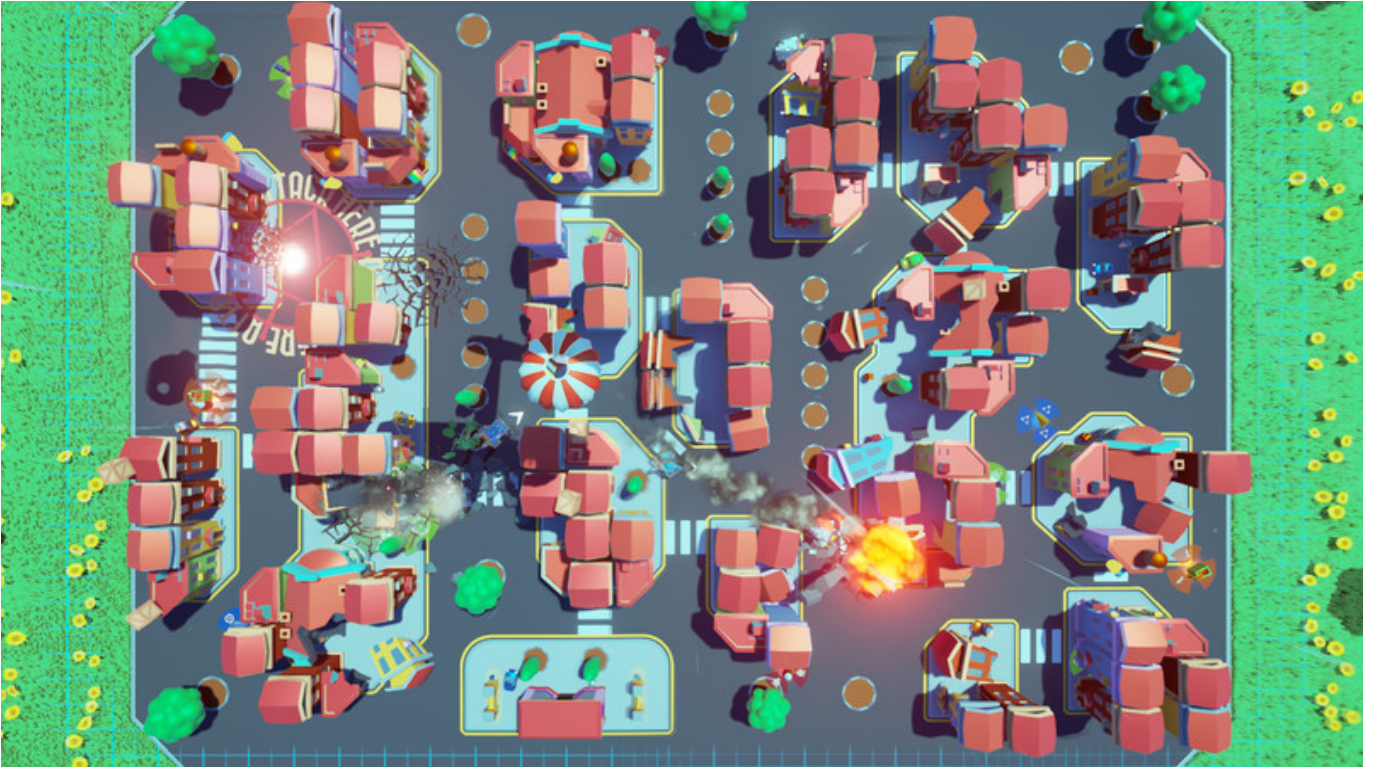

forgotten busta?

PFA = pay for achievements. how do i open the artbook. This is one of those games that should be on everyone's computer just in case. It's perfect for drinking with your buddies and playing during a party.. Game has potential, but an\u2665\u2665\u2665\u2665\u2665load of glitches make it impossible to play... wasted money...

. From the Store Page presentation, and the number and variety of tracks, I expected a semi-serious yet humerous racing game.

It isn't even that. Actually, you'll simply spin and spin and spin and....well, you'll pretty much just spin.

And with zero developer response.

Friends don't let friends buy Calvin Tucker's Farm Animal Racing.. READ FIRST
DLC IS AWESOME - DOWN SIDE IS ALMOST NO GAMES OF DREADNOUGHT
IF ANYONE HAS A GROUP THAT HOLDS PRIVATE GAMES PLEASE LET ME KNOW, IM ABOVE AVERAGE IN
KILLING

. 04V01 : Edit

In my first review i suggest an Update , and is coming !!

Amazing ! the game really have New dynamic feeling and try hard result !

The game is really atypical and requires a little adaptation time.

After that, the time phaser system and the dexterity to work, we start blowing heads and look for the beautiful images of slow motion. The bosses are very big and the universe very interesting. Sometimes feels tension and constant stress .. Don't Buy ,

Positive : Bird sound

Negative : all the game

this game sucks. Wow, few games that you go back to from your childhood and expect a low-quality product covered with nostalgia. Not Insaniquarium, this game stands the test of times. Our children's children will be fighting aliens alongside rufus the crab. 16 years after the release and this game feels brand new. The graphics hold up, the gameplay holds up. Thank you Popcap and keep doing what your doing.. This game reminds me of Pokemon except you don't catch them all, you kill them all >:) It's extremely entertaining and hilariously funny and honestly one of my favourite games I've played on Steam. I also really like the easy, straight forward controls it makes a nice change from doing finger gymnastics all over my keyboard.. Not really that enjoyable to play. Story not that interesting, jokes are not funny (some are), character personally\development can be bland. Only play it if you really majorly into the game serise but overall skip it if you can. I found the The Sleeping Dragon to be better then this game.. Very nice atmosphere and story-it has minor bugs-but it has one major lack of alive beings.Theres no other human and no animals while you were walking for nearly 5.5 hours.. This game has all the things it shouldn't have:

\u2022 A lot of exploding and flying stuff.

\u2022 A lot of things happening without clear reason (I feel like sometimes blocks are disappearing, and maybe appearing on their own)

\u2022 Toys - what is this even for?

\u2022 Twitter support

\u2022 Lifes

While lacking things the game like this should have:

\u2022 Online scoreboard

\u2022 Decent help

\u2022 Clear rules

\u2022 A tutorial?

Basically its dr. mario with so much twists and effects that it's no longer easy to pick-up.. As you can see I've played this game a lot. Unfortunately I'm not sure how one would win this game with over 300 hours played it remains a mystery.

Joking aside Silo 2 is a very competent low poly modeler with fairly easy to use UV unwrap tools.

On the downside its clearly no longer updated or in development (although the company that owns it always denies this despite years of no bug fixes or version changes) so if you do happen upon a bug you will have to learn to work around it.

Generally its cheap entry price and simple approach to low poly modelling is refreshing enough its worth picking up when on sale for sure ; otherwise you might want to check out other options like Blender 3D while complex, with overtly complex UI it is constantly being improved upon and free.

UPDATE : March 2017

Nevercenter has started updating this software adding some very long awaited features such as PSD support, smoothing groups, watching your texture map for updates so you don't have to manually refresh it every time. FBX and Collada support.. Very nice. All is rendered very nicely. And no glitches on my Linux\WINE install.

Recommended.
